

VOODOO INFRA AUXILIARY PVT.LTD

Here We Build Your Visions

Voodoo Infra Auxiliary Pvt Ltd is a steel and tensile designing company that is driven to fulfil all design and structuring needs of household and business entity. We are committed to fulfil the dreams of our customers and help them realize their vision. With expertise in the field of service and design, we have delivered quality designs for every single customer. At Voodoo Infra, we believe that each customer is unique and deserve a design that goes hand in hand with their vision, and for that reason, we deliver innovation, style and class with every creation.

OUR SPECIALIZATION

Voodoo Infra Auxiliary Pvt Ltd is committed to providing high-tech solution, steel structure utilization for homes and workspaces, concept development by identifying individual and architectural requirements. We understand the importance of constructing sound and smart structures, hence our solution-driven approach, tailored to suit individual requirement helps build modern structure. Steel structuring forms the base of any construction and plays a crucial role in determining the nature of a structure as they are cheaper than other materials and also help expand the possibility of design options resulting in structurally sound and ingenious creation.

Architectural Tensile/Steel Structures

Our company provides wide array of services, starting from designing to manufacturing of tensile/steel structures. Listed below are few architectural designs that we have delivered to our clients.

- ***Conical Tension Structure***
- ***Hyper or Anticlastic Structure***
- ***Parallel Arch or Barrel Vault***
- ***Dome Structure***
- ***Tensile Fabric (Membrane Structure)***
- ***Steel and Glass Architectural Structure***
- ***Retractable Structure (customized with fabric, Steel or Glass as per Client's requirement)***
- ***All types of Aesthetical Steel Structure***
- ***Renewable Energy Structure (Solar and Wind Energy)***

SCOPE OF WORK

Voodoo Infra Auxiliary Pvt Ltd provides wide range of Steel and Fabric Structural Application with innovative ideas and with a team of experts which understands the client requirement and deliver optimum outcome. Listed below are few of our expertise on applications of Architectural Tensile/Steel Structures

- Car Park Structure
- Land-Scape Structure
- Gazebo
- Pergola
- Pagoda
- Atrium Covering
- Entrance Canopy
- Rain Basera
- Emergency Shelter
- Walk way covering
- Sun-Shed Structure
- Taxi/Bus Waiting Stand
- Taxi/Auto Stand
- Aesthetical Advertisement boards
- Façade System
- Office Partition
- Swimming Pool Covering
- Site Offices
- Commercial Store
- Petrol Pump Structure
- Garden Stand
- Toll Plaza
- Market Shed
- False Ceiling
- Cladding
- Resort Tent
- Temporary Hanger M.S.
- Factory Shed
- Temporary Shed for different usages
- Truck Cover
- Multipurpose Retractive Structure
- Sliding Structure
- Green House for Farming
- Balconies

WHAT MAKES OUR PROJECTS AND SERVICES STAND OUT?

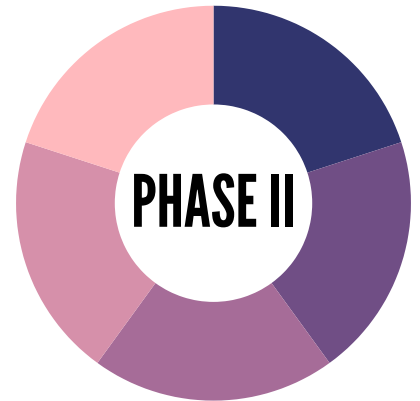

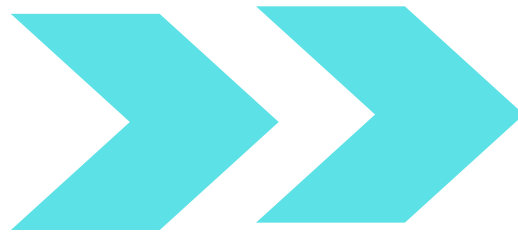

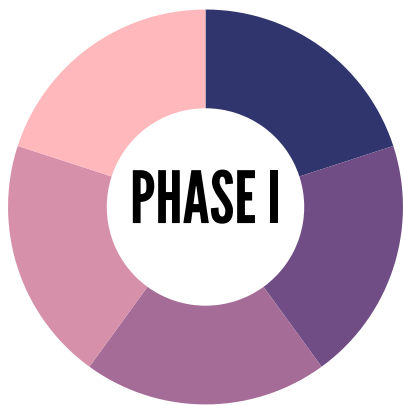

We have delivered quality designs and structure to our clients. At Voodoo Infra, we believe that each client and their need for a structure is unique and deserves a design that goes hand in hand with their vision, and for that reason, we deliver innovation, and best in class with some of the below listed features.

- **Structure with Tensile Fabric and Solar panels**
- **Eye Catching**
- **Eco Friendly**
- **Attractive Aesthetics and Features**
- **Modular Range**
- **Customize Structures/Products as per customer need / as per aesthetics / Different Ideas / Available Area**
- **Aesthetical and Creative**
- **Generate Renewable Energy**
- **Act as Renewable Energy Generator**
- **Inbuilt multiple accessories to be use**
- **Recover cost and behave as revenue generator**
- **Display advertisement and any social advertisement**
- **Dismantlable and Shiftable**
- **Sun shedding behaviour**
- **Rain Shed**
- **100% Utilizable structure**
- **Structure Maintenance service available**
- **Warranty available**
- **Have provisions for planting to generate fresh air**

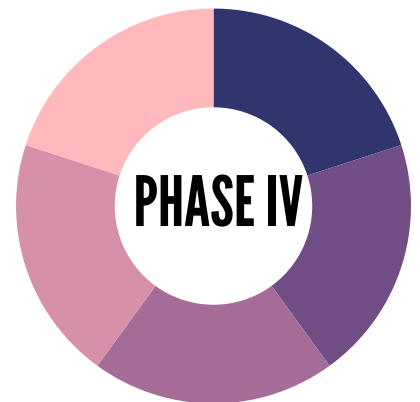

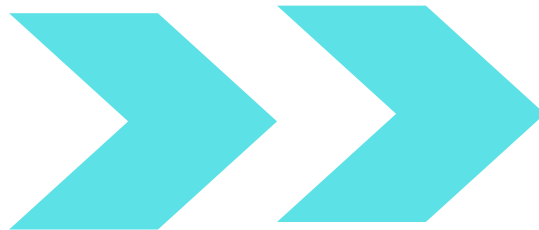

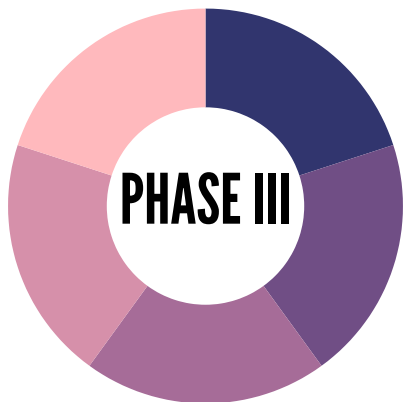

OUR PROJECT METHODOLOGY TO BUILD SOLID STRUCTURE

Let us give a small insight of how we professionally analyse the need of a structure from the scratch point and ensure every single area is built after understanding the critical parameter of design to deliver desired outcomes

- Identify Client's Need
- Site Survey for more possibilities
- Site Measurement & Support Identification
- Prepare Concept Drawings

- Submit concept Drawings
- Review & do necessary Changes On Concept Drawings (as needed)
- Structural Analysis
- Project Costing

- Preparation of Final Fabrication Drawings
- Identify Resources
- Material Procurement
- Changes on Fabrication Drawings if required as per site Condition
- Team Mobilization

- Complete Fabrication
- Structure Erection
- Final Paint Application as per specifications
- Quality Control
- Final Installation of Roofing Material
- Handover & Documentation

WHY CHOOSE US?

Our engineers and technical team hold a decade of expertise in building and delivering some of the prominent landmarks across India and our team is committed to provide high-tech solutions, with use of the advance tools in architectural tensile/steel structural field. Architectural work which our experts have done in the past itself is a testimony. Let us briefly talk about our Projects, Technical expertise and Advance tools which makes our projects innovative, reliable and make them stand tall with great aesthetical beauty.

Project Expertise

Our expertise provides full architectural design service from concept design to construction. Our extensive experience ranges both in types and sizes, from individual to commercial arena. Below are few projects which were successfully executed & delivered by our expert engineers.

Coimbatore Airport - Airport Authority of India [AAI]

Bangalore Hockey Stadium- Karnataka Rural Infrastructure Development Ltd.

Mumbai Monorail [Bhakti Park] Larsen and Tourbo [L&T]

Virtuous Mall Surat: - Virtuous Group.

Rajiv Gandhi Urja Bhawan New Delhi - ONGC India LTD. & Hafiz Contractor.

Sahara Star Hotel- Sahara Group.

Toll Plaza Surat Ring Road - IRB group.

Technical Expertise

A team of experts with the experience of more than 10 years and with the intensive knowledge of advance tools and platform to design and analyse innovative and tough structures .Below listed are few advance architectural & Structural designing tools which we have expertise upon.

- **CATIA**
- **STAAD Pro**
- **Auto CAD**
- **REFM**
- **REVIT Architectural**
- **Solid Works**
